D. Broad Program Goals & Measureable Student Learning Outcomes

1. Broad History Program Goals

- A. Students should understand academic honesty, a concept presented to them in all history classes.
- B. Students should understand skills that historians use in research.
- C. Students should understand the skills that historians use in writing.
- D. Students should understand historiography.
- E. Students should understand the value of diversity.

2. Measureable Student Learning Outcomes

- A.1. Each MA student will demonstrate in all research papers, including the thesis (Plan I), ethical use of sources and accurate and properly formatted citations.

UNM Goals (___ Knowledge x Skills x Responsibility)

- B.1. Each MA student will demonstrate in all research papers, including the thesis, the abilities: to use primary and secondary sources appropriately; to identify and evaluate evidence; and to identify all relevant archival sources for a particular project. (Plan I)

Each MA student will demonstrate in all research papers the abilities to use primary and secondary sources appropriately and to identify and evaluate evidence. (Plan II)

UNM Goals (x Knowledge x Skills ___ Responsibility)

- C.1. Each MA student will demonstrate in her/his thesis the ability to formulate a clear argument, support the argument with appropriate and thorough primary evidence, and reach a convincing conclusion. (Plan I)

Each MA student will demonstrate in all research papers the ability to formulate a clear argument, support the argument with appropriate and thorough evidence, and reach a convincing conclusion. (Plan II)

UNM Goals (x Knowledge x Skills ___ Responsibility)

D.1. Each MA student will demonstrate in the required Advanced Historiography course (664) the ability to recognize and apply the fundamental paradigms, analytical models, and theories of causation that are used in the discipline.

UNM Goals (x_ Knowledge x Skills Responsibility)

E.1. Each MA student will demonstrate in research topic choices and resulting written work the ability to recognize and articulate the diversity of human experience, including ethnicity, race, language, sex, gender, as well as political, economic, social, and cultural structures over time and space.

UNM Goals (x_ Knowledge x_ Skills Responsibility)

E. Assessment of Student Learning Three-Year Plan

All programs are expected to measure some outcomes annually and to measure all priority program outcomes at least once over two consecutive three-year review cycles. Describe below the plan for the next three years of assessment of program-level student learning outcomes.

1. Timeline for Assessment

In the table below, briefly describe the timeframe over which your unit will conduct the assessment of learning outcomes selected for the three-year plan. List when outcomes will be assessed and which semester/year the results will be discussed and used to improve student learning (e.g., discussed with program faculty, interdepartmental faculty, advisory boards, students, etc.)

Year/Semester	Assessment Activities: Each semester, we will assess each students taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes. Results will be compiled and report prepared for discussion in Spring— Graduate Advisory Committee in January; Departmental meeting in February; Graduate student meeting in March
Year 1, Fall	Assess each students taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes; compile and write report
Year 1, Spring	Assess each student taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes; discussion in Spring—Graduate Advisory Committee in January; Departmental meeting in February; Graduate student meeting in March
Year 2, Fall	Assess each student taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes; write report for Spring
Year 2, Spring	Aassess each student taking MA

	Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes; discussion in Spring—Graduate Advisory Committee in January; Departmental meeting in February; Graduate student meeting in March
Year 3, Fall	Assess each student taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes.; write report for Spring
Year 3, Spring	Assess each student taking MA Comprehensive exams and/or submitting thesis. We will assess each of our learning outcomes; discussion in Spring—Graduate Advisory Committee in January; Departmental meeting in February; Graduate student meeting in March.

2. How will learning outcomes be assessed?

A. What: *For each SLO, briefly describe the means of assessment, i.e., what samples of evidence of learning will be gathered or measures used to assess students' accomplishment of the learning outcomes in the three- year plan?*

Students will be assessed on their progress toward the SLOs at five points during their academic career. The table below enumerates which SLOs will be evaluated at each assessment point. Each SLO will be assessed by at least two direct measures at different points in the student's program.

Direct Measure: Three types of instruments are used in our assessment of our SLOs. **Each measure is Direct**

- A. The **research paper/thesis** will be typically completed during the third or fourth semester of the student's academic career. Each student completing a thesis/research paper will be rated by their thesis committee or the professor for whom the research paper is complete using a writing rubric for all students writing a thesis or submission of major research paper in a seminar of their major field. **(See attached)**
- B. The department requires students for both plans to take a **MA major field exam**. The MA major field exam is typically taken in fourth sixth semester of a student's academic career. Each student taking this exam will be rated by the three professors who have been chosen to read the exams that semester and for that specific field. Each student completing a major exam will be rated by a committee using the attached History MA Major Field Exam Assessment Matrix/**(See attached)**
- C. For MA students who are not writing a thesis, they are required to take a **MA minor field exam**. It is typically taken in fourth sixth semester of a student's academic career. Each student taking this exam will be rated by the three professors who have been chosen to read the exams that semester and for that specific field. Each student completing a minor field exam will be rated by a committee using the attached History MA Major/Minor Field Exam Assessment Matrix/**(See attached)**

Indirect Measure:

1. Students will be required to fill out a **survey** based on the SLOs about what they believe they have learned as a result of the program: self-reported
2. In the same survey, questions will gauge how satisfied they are with their experience--**self reported.**
3. To gauge success of program, the department will report **time to degree and job placement**

ii. *Indicate whether each measure is direct or indirect. If you are unsure, contact assessments@unm.edu for clarification. You should have both direct and **indirect measures** and at least half of the assessment methods/measures program wide will be direct measures of student learning. **Explained above.***

iii. *Briefly describe the **criteria for success** related to each direct or indirect measures of assessment. What is the program's performance target (e.g., is an "acceptable or better" performance by 60% of students on a given measure acceptable to the program faculty)? If scoring rubrics are used to define qualitative criteria and measure performance, include them as appendices.*

Direct Measure:

1. Research paper/thesis: Performance target 90% of students need to be rated adequate or above.
2. MA major field exam: Performance target 90% of students need to be rated adequate or above.

Indirect Measure:

1. Students will be required to fill out a survey based on the SLOs about what they believe they have learned as a result of the program: self-reported.

Self-report target of 90% of students for learning to be adequate or above.

2. In the same survey, questions will gauge how satisfied they are with their experience--self reported.

Self-report target of 90% of students for learning to be adequate or above.

3. To gauge success of program, the department will report time to degree and job placement/PhD/graduate program placement

Time of degree: 2 years or less for 90% of the students

Job placement: Undetermined % as of now.

B. Who:

1. We will sample all of the students in the program since we typically graduate between 10-15 students per year.

3. What is the unit's process to analyze/interpret assessment data and use results to improve student learning?

The data will be analyzed, discussed, and reported to the College no less than once every year.. Annually, **the graduate director** will summarize these assessment data as part of our review of the graduate program in the spring semester. Minutes of these discussions will be included in the report to the College.

The graduate director will discuss the assessment results with **the graduate committee** with regard to the severity of the weaknesses (is one SLO weak on every measure at each step of the academic path?) and engage in a triage process, coming to collective agreement about what SLO is the program's weakest overall. The graduate committee will then discuss why this SLO is weak and what might be done to make it stronger. The graduate director will summarize this discussion and make a formal recommendation for improving this SLO in a report to **the faculty**. This recommendation may be with respect to the assessment process itself, the curriculum, or pedagogy. The faculty will then consider the report and recommendation of the graduate committee at a department meeting in the Fall semester for implementation in the Spring semester.

The department chair, in consultation with the graduate director, will prepare an outcomes assessment report for the College that summarizes the measures of the SLOs, summarizes the department's discussion regarding the graduate director's internal reports, and describes what changes (in assessment instruments, curriculum, or pedagogy) were approved by the faculty.

Semester: Fall/Spring _____ Major Field _____

Student Name: _____

Instructions: As part of the Department's program of outcomes assessment, we evaluate our students' learning along several dimensions. Using a students' thesis or major research paper as a writing sample appropriate for this evaluation, please rate each student's performance using the following criteria

Summary of Student Performance

	Weak(1)	Adequate(2)	Strong(3)	Exceptional(4)
B.1. Student demonstrates the abilities: to use primary and secondary sources appropriately; to identify and evaluate evidence in their major field.				
C.1. Student demonstrates her/his the ability to formulate a clear argument, support the argument with appropriate and thorough primary evidence, and reach a convincing conclusion.				
D.1. Student deploys knowledge from Advanced Historiography course (664) in that they have recognized and applied the fundamental paradigms, analytical models, and theories of causation in their response.				
E.1. Student demonstrates in their exam research topic the ability to recognize and articulate the diversity of human experience, including ethnicity, race, language, sex, gender, as well as political, economic, social, and cultural structures over time and space.				

The above measures are linked to the following student learning objectives:

B.1. Each MA student will demonstrate in all research papers, including the thesis, the abilities: to use primary and secondary sources appropriately; to identify and evaluate evidence; and to identify all relevant archival sources for a particular project. (Plan I)

Each MA student will demonstrate in all research papers the abilities to use primary and secondary sources appropriately and to identify and evaluate evidence. (Plan II)

4. After graduating from UNM are you planning to attend graduate or professional school?

yes no

If so, in what field?

If you have been admitted to a program, what is it?

5. Are you planning to work? yes no

If so, in what occupation?

6. How did studying for the Master's Degree in History influence your choices concerning further education or work?

QUESTIONS ABOUT THE HISTORY GRADUATE PROGRAM(Satisfaction)

7. Which graduate courses did you take?
8. Did the courses you took prepare you for the comprehensive exam?

yes no

9. Did the courses you took prepare you to write your thesis?

yes no

10. Which courses did you find most valuable?

Why?

11. How did the graduate courses you took change or affect your intellectual life?

12. What were the three most important concepts or ideas that you learned in your history seminars?

13. The learning environments in your seminars were structured as:

lecture

group projects

small group

individual projects

discussion

Which did you find most valuable?

lecture

small group

discussion
